

Math Module 1 Lessons 1-4 Review

name: _____

1. Write the numbers to make each number sentence true. (HINT: use blocks, pictures, or try and build tens to help you solve the problem)

$6 + 9 + 4 = \underline{\quad\quad} + 5$

$10 + 12 = \underline{\quad\quad\quad} + 3 + 12$

$25 = \underline{\quad\quad} + 5 + 5$

2. Label each number sentence true or false.

$7 + 4 = 10 + 1$ _____

$6 + 8 = 14 + 1$ _____

$5 + 9 = 4 + 8$ _____

$9 + 4 = 10 + 3$ _____

3. Use drawings, words, or numbers to show why $21 - 6 = 15$ and $10 + 5 = 15$
(HINT: if you want to draw a picture, use a 10 frame! You can also use number bonds!)

4. Use number bonds to solve. (HINT: watch the videos on mrstoponce.com to see how to break apart and build those number bonds! Remember we always want to BUILD TENS!)

$$32 + 7 =$$

$$55 + 3$$

5. Karter's mom gave him 7 baseball cards to start his collection. He received 74 more cards for his birthday.

- (a) Use words, pictures, or numbers to show how many baseball cards Karter has now.

- (b) Maryjane has 84 cards and gives away 10. How many cards does Maryjane have now?

- (c) Who has more baseball cards now, Karter or Maryjane?
