

Show and Teach Schedule

In Second Grade, we will be shaping "show and tell" into "show and teach," where a child actually teaches the class something they know how to make or do.

The basic outline of a show and teach is:

1. Come up with a favorite talent or skill to share with the class. It doesn't have to be anything outrageous- a simple task will be fine.
2. Practice presenting at home. Make sure that your talent/skill is broken down into easy steps for the rest of the class to follow.
3. Get all the materials ready and come to school prepared.

This is an opportunity for the rest of the class to learn about each other and to share their own talents and interests. Remember that teaching others to do something requires the child to break the task down into steps. I look forward to learning more about your child!
